GRAFTED FRENCH LILACS

For Lining Out

These are grafted during the winter on privet roots. The union is carefully wrapped and the plants stored in sand. The graft is firmly knitted together by spring and they are ready to plant into rows. They soon grow into saleable plants and French lilacs are becoming more popular ever year.

Plant these deep enough so graft union is covered two or three inches and Lilacs will develop their own roots.

S. denotes single flowers, D. double.

Price \$5.00 per 100 \$48.00 per 1000
